

CASE STUDY

Background: The old age home became non-compliant over time. Therefore no new patient intake was allowed rendering the income vs overheads out of balance. They and we were hugely blessed by so many folk supplying foods etc over a long period of time to keep them going.

One day we decided to rather look at fixing the problem. We started the ball rolling and finally in May for our 5th birthday month we were enabled with donations, discounts and more, we did it!

This was a HUGE undertaking and thanks to many, we managed to help this old age home become regulatory compliant with the required 27 hospital tracks and curtains between beds and a sluice system that needed to be relocated from one side of the building to the other side.

It is a pride and joy achievement. We are so very proud!! Thanks to everyone that helped to make this possible.

LINGELIHLE OLD AGE HOME in Zolani, Ashton - RAM helps them become regulatory compliant
